### Application and Renewal Processing MAGI/Non-MAGI/ABD

**42 CFR § 435.952(c)** During the disaster DFCS has the authority to accept self-attestation when documentation is not available due to a disaster. This applies to income and resource verification. Documentation is required in the case record. The exception to this regulation is citizenship/immigration status, which must be verified.

**42 CFR § 435.912(e)(2)** Permits time limits to exceed federal timeliness standards in emergency situations. Document the reason for delay in the applicant's case record.

**42 CFR 435.930** Extension of the renewal certification period. During the disaster, the renewal certification period will be extended for four months from the declaration of the disaster. This applies to renewals due for the month of March and April 2020.

### Qualified Income Trust

Currently, an applicant with income over the Medicaid CAP require a valid Qualified Income Trust (QIT), and the QIT may NOT be backdated. The requirement that the QIT must not be backdated will be waived and allow eligibility to begin the application month. This eligibility requirement will be waived for any QIT that has not been established in the application month allowing additional time for individuals to comply with the requirement due to the disaster.
