The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing and other services; and to encourage the use of various community resources through referral to appropriate providers.

Case Management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation, and other services when needed.

The set of interrelated activities are as follows:

2. Assistance to the eligible child in locating needed service providers and making the necessary linkages to assure the receipt of services identified in the service plan.
