## **SUCCESS DOCUMENTATION**

### **Preface**

A thorough interview is the cornerstone of accurate casework. However, SUCCESS fields do not always capture all the aspects of an effective interview. It is necessary to DOCUMENT to accurately address all required elements.

The following pages contain guidelines to standardize **basic** documentation in SUCCESS. Basic documentation is the minimal “generic documentation” that is required on all cases. There are, however, no “generic cases”. All cases are individual. Basic documentation addresses the elements shared by most cases. Additional documentation is usually required to address the unique aspects of each case.

### **General Rules**

The purpose of documentation is to explain what SUCCESS cannot. When a SUCCESS field alone fully and clearly documents a situation, additional documentation is not required. It is not necessary to do “negative” documentation.

For example, there are multiple codes to document type of verification. “CS” for client statement, is usually a clear enough documentation of the source of verification. “TC” for telephone call would never, alone, be adequate for documentation.

Examples:

TC (telephone call)- requires documentation of the phone number called, the name of the person spoken to, the date of the contact and any other parts of the conversation that are relevant to the case.

OT (other)- requires documentation of the source of verification.

LE (letter)- requires documentation of who sent the letter.

Include additional documentation when required.

### **Identification**

All documentation should start with the date of the action and include the case manager’s last name and first initial and caseload number. Revenue Maximization Units should indicate the unit you work for (Rev Max Region V, Rev Max Intake Unit, etc.) A blank line should separate the documentation for each date.

### **Children in Placement Medicaid**

Documentation standards that are applicable to all Medicaid Programs also apply to Children in Placement. While SUCCESS is not programmed for certain COAs for foster or adopted children, all information and standard documentation must be entered when a foster or adopted child is determined to be RSM eligible.

RevMax staff are responsible for following all Medicaid SUCCESS Standardized Documentation for all case actions or contacts for cases in county caseloads when assisting counties in removing a child. Include the date of the action, case manager's last name and first initial, case load number, contact number and reason for the action or change and the actual date of the child's removal from the home.

Documentation for case circumstances, placement episodes, AFDC relatedness criteria and budgeting, removal home circumstances, court orders, reimbursability, and COA determination are in REMA behind the FCAR screen. Reference the FCAR Screen documentation standards for specific information.

A child must be removed from all active or pending cases prior to being placed in RSM Medicaid by Revenue Maximization Regional Centers. If the child is included in pending related cases (Food Stamps, TANF, LIM, RSM, etc.), the county is responsible for removing the child from the case in order for the RevMax MES to register the foster care case on SUCCESS. When a county removes a child from an active or pending TANF, Food Stamp and/or Medicaid case, the county will use code 569 to remove the child and waive Medicaid Adverse Action for the child only to prevent a delay in processing the Foster Care and Medicaid application. Adverse Action is not waived for TANF or Food Stamp cases. The RevMax MES will assist county offices in removing children from active cases when coming into custody.

### **Manual Tracking, Relative Placement, Continuing Benefits**

There are circumstances when a child in care has a IV-E eligibility determination and is tracked manually and not through SUCCESS.

#### **Food Stamp Applications**

A Food Stamp application that includes a foster or adopted child may be completed by a county without transferring the Medicaid case from a RevMax caseload. The RevMax case will have the child as HOH, the living arrangement coded as FC and is a child only case. The Food Stamp application may be registered by another county using standard procedures. The living arrangement code will be entered as FC and the MISC screen will have the child coded as "Y" at the Auto Reassign Override.

#### **Adoption Assistance**

If during registration screening it is discovered that an Adoption Assistance child is receiving Food Stamps, do not remove the child from the ongoing benefits case, but notify the county worker to code the child's living arrangement as FC and to code the child's

### **Children in Placement Medicaid (cont'd)**

Auto Reassign Override as “Y”. RevMax will process the Adoption Assistance Medicaid application.

#### **Relative Home Placement – Reference Section 2848 – Relative Care Placement**

If a county DFCS requests closure of a foster or adopted child’s case in order to process a relative’s pending application for TANF and/or Family Medicaid that will include the foster or adopted child in the AU/BG, MES will complete a CMD on the existing child’s case. The MES will code and document SUCCESS with the details of the change in placement, the outcome of the CMD determination and reimbursability. The case will then be transferred in SUCCESS to the county requesting closure following standard transfer procedures.

#### **DFCS Relieved of Legal custody - Reference Section 2848 – Relative Care Placement**

When a county requests closure of a foster or adopted child’s through Form 227, the RevMax MES will complete a CMD on the existing child’s case. The MES will code and document SUCCESS with the details of the change in custody, the change in placement, the new address of the child, outcome of the CMD determination and reimbursability. The case will then be transferred in SUCCESS to the resident county following standard transfer procedures. A “transfer” case record will be created and sent to the county.

#### **Minor Parent Foster Child**

A foster child has their child living with him/her in placement and assistance is requested for the minor parent’s child. If the child is not in DFCS custody, the minor parent’s child is not considered a foster child. The minor parent or the agency may apply for LIM, Newborn or RSM Medicaid for the child. It is preferable for the child to be F15, Newborn Medicaid, if all eligibility criteria for this COA are met. Reference 2162-Low Income Medicaid, Section 2174-Newborn Medicaid and Section 2182-RSM Child for eligibility criteria. Reference Section 2850- Special Considerations for procedures.

If the minor parent’s child is approved for any COA, the case is a child only case and the minor parent must be included in the child’s case as a Non Member (NM) in SUCCESS. The minor parent’s child’s case is retained in the same Rev Max caseload as the minor parent foster child. These procedures must be followed to prevent SUCCESS from pulling the minor parent foster child’s case into a county caseload with their child.

If the minor parent and his/her child are in an existing active Medicaid case when the minor parent comes into care, code the minor parent as a Non Member in the existing case and transfer to the Rev Max caseload. Complete the IV-E and Medicaid determination for the minor parent foster child per policy and procedures as a child only case.

**Narrative Screen**

The NARR screen should be documented for all case actions (application, review or change) and indicate what action is occurring. The documentation should include type of contact and/or action being taken. For all interviews, the documentation on NARR should reflect the initial conversation that the case manager conducts with the A/R prior to starting the interview on SUCCESS. Document the name of the person spoken to and that s/he is the best source of information. Document whether face to face, alternate or telephone interview is being completed. Document that A/R or authorized representative was mailed HIPAA form and/or EMA notification form if form was not completed at interview and is not in case record. Document date that a Form 315 was given or mailed for all LO1 cases and WO1 cases over age 55. If a SUCCESS letter template has been used, document the date letter was written, type of letter template (ex. M400), Load ID and name of the worker using the letter template. For Medically Needy, document actions taken and any pertinent information entered on SDME screen. Document validity of QITs, when sent to DCH Legal, when returned & outcome, if applicable. For Supervisory reviews document Supervisor's name, date reviewed, and accuracy of AU, either "No corrections needed" or "Corrections due by mm/dd/yy".
